

MINDMARKS

Makes you feel & think at the same time.

MINDMARKS turns complex information into simple messages, and messages into stories. Stories that fuel compelling conversation. Conversation that sells your ideas or products. Thematically, textually and visually. We call this Visual Corporate Storylining.

MINDMARKS understands sales and marketing needs and combines this knowledge with many years of consulting and conceptual know-how.

MINDMARKS is Eva Pohlmann and a flexible team of photographers, illustrators, designers, moving image and animation artists. Put together specifically for your project. Nationally and internationally.

WHAT WE BELIEVE IN? YOUR STORY.

We're interested in hearing about you and your goals:
